AVIATION SAFETY - ADDITIONAL OVERSIGHT PLANNING BY FAA COULD ENHANCE SAFETY RISK MANAGEMENT: REPORT TO THE SUBCOMMITTEE ON AVIATION, COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE, HOUSE OF REPRESENTATIVES. (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The U.S. aviation system is one of the safest in the world, reflecting the work of FAA, industry, and others to continually improve safety. To further enhance safety, in 2005, FAA began adopting a proactive, data-driven, risk-based approach to managing safety, referred to as SMS, and has proposed rules that would require SMS implementation for certain segments of the aviation industry. GAO was asked to review SMS implementation in the aviation industry. This report addresses (1) the status of SMS implementation at FAA and in the aviation industry; (2) key challenges that FAA and industry face in implementing SMS; and (3) actions aviation stakeholders believe FAA could take to improve SMS implementation. GAO reviewed FAA documents and interviewed FAA officials. GAO also interviewed representatives from 20 selected aviation stakeholders, including commercial air carriers, certificated airports, repair stations, and design and manufacturing firms. Because the stakeholders were non-statistically selected based on their size, SMS implementation, and the industry segment represented, their views cannot be generalized to the industry or any industry segment.
