Excerpt from The Appreciation of Music, Vol. 1 This book has been prepared in order to provide readers who wish to listen to music intelligently, yet without going into technicalities, with a simple and practical guide to musical appreciation written from the listeners rather than from the professional musicians standpoint. The authors believe that there is at the present moment a genuine need for such a book. Teachers in schools, colleges, and universities, educators in all parts of the country, and the music-loving public generally, are every day realizing more vividly the importance of applying to music the kind of study which has long been fruitfully pursued in the other arts; and with the adoption, in 1906, by the College Entrance Examination Board, of musical appreciation as a subject which may be offered for entrance to college, this mode of studying music has established itself firmly in our educational system. Yet its progress is still hampered by the lack of suitable text-books. The existing books are for the most part either too technical to be easily followed by the general reader, or so rhapsodical and impressionistic as to be of no use to him.
