By Riverside Press

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Riverside Press: Cambridge Massachusetts The plates ready for printing are taken through a subway which connects the main building with the press-rooms. They are made up into forms of eight pages or multiples and placed on the bed of a suitable press. The ink is carried over the face of the plates by rollers. The paper is supplied either by hand or by a mechanical feeder, and after going through the press and receiving the impression, it emerges at the opposite end, printed on one side. The same routine applies to the other side of the sheet. The famous printers of the old days found that by moistening the paper before printing on it, a clearer, better impression of the type was made, and in the highest grade of letter-press work done at Riverside this process is still in vogue, although it involves additional work and expense.
