ELECTRICITY AND LIFE (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Electricity and Life It enters into the truth about species to show that reproductive germs are electrically, though not by set and fixed form, patterns that each germ, male as well as female, acts as a reproductive structure, all animals and all plants (with some very low exceptions) being two woven into one, the explanation of a vast range of facts which Darwinism has put in a wrong light; and that the distinction of sex results from electrical opposition of positive and negative. That insects have made the irregularities of the flowers which they visit; that cross-fertilization is Nature's better method, because only by it is adequate electrical opposition brought into play, and also because the two plants which are woven into one so often fail to develop evenly; and that insects greatly help by their electrical intensity, are conclusions immediately resulting from the main doctrine of the true origin of species. It may be remarked also that the incessant reference made by Mr. Darwin to purpose, which allowed the old supernaturalism to survive through a large part of his system, disappears altogether with the new doctrine, which knows only natural result, irrespective of immediate design. Darwinism borrows the Maker of heaven and earth for the original speck of protoplasm, and beyond that knows no God; but of little gods in the slime and the bush it is full. These do not belong in a true system of nature, which at once completes materialism, and gives it a cosmic elevation and breadth suggestive of Infinite Reason in the inscrutable background of natural law. Chemistry and magnetism have successively acknowledged the overruling influence of...
